socially responsible investments

What is Socially Responsible Investing (SRI)?

SRI is defined as the integration of peoples' social, environmental and ethical values with their investment decisions. It is the act of making investment decisions to achieve not only financial returns, but also social and environmental returns producing a "triple bottom line".

Socially Responsible Investing consists of three strategies:

1. Screening
2. Shareholder action
3. Investment in the community

SCREENING PROCESS

The screens Meritas uses for all of its portfolios are:

- POSITIVE
- Aboriginal Concerns and Relations
 - Corporate Governance
 - Cultural and Gender Diversity
 - Employee Relations
 - Environmental Impact
 - International Human Rights

- NEGATIVE
- Alcohol Production
 - Animal testing for non-medical reasons
 - Gambling
 - Military Contracting
 - Nuclear Power
 - Pornography
 - Tobacco Production

ACTIVE SHAREHOLDER STATUS

Meritas Mutual Funds takes the following approach on behalf of its investors:

- Dialogue with management on grey issues
- Increase corporate understanding of social, environmental, and financial issues
- Work with companies that indicate a willingness to change
- Vote ownership shares in line with positive standards
- Post voting intentions on website in advance of vote

COMMUNITY DEVELOPMENT INVESTMENT

Meritas invests up to 2% of each of its mutual funds into community development investments.

- Investments in local community oriented investment programs
- Provide economic growth and opportunity in areas that might not normally have access to capital
- Effect on return to the investor should be insignificant
- Effect on the recipient of the funds could be very significant

Meritas is an SRI leader in Canada and embraces all three strategies in their funds.
